Laser & Electronics Middle East Group  
Dubai, United Arab Emirates

**To whom it may concern**

On behalf of AMS Properties, a leading property development company in Kenya, please accept this letter as my highest recommendation of the lighting firm, LEME Lighting. I have had the opportunity to work closely with LEME Lighting over the past three years through a variety of construction projects and as a result of their excellent work, they have quickly become our preferred lighting supplier on two key projects including Fortis Suites, a commercial business tower, and Park Inn Hotel, part of The Rezidor Hotel Group. LEME Lighting designed and supplied the façade lighting for both projects.

LEME Lighting's input has been invaluable in our efforts to provide the community with offices and a hotel, while incorporating sustainable, energy efficient enhancements that are consistent with today's green building codes. LEME Lighting has continued to provide turnkey solutions for our projects and demonstrated outstanding technical knowledge and after sales support. They have worked with the MEP contactor on site to provide solutions to assist in cost savings and efficiency. Their work is always done with quality and professionalism in mind. Schedules have been maintained and all projects have been completed on time. I have consistently found their management of each project to be among "best of class" in quality control, schedule, cost management and overall project administration.

We will continue to use LEME Lighting in all our projects. I highly recommend their products and services for your upcoming project.

Yours faithfully,

Ronal Samani  
Director
