

FOUR SEASONS RESORT
Dubai at Jumeirah Beach

February 10, 2015

To Whom It May Concern,

Being part of one the most exclusive hospitality brands in the world, it was important for us to achieve a certain aesthetical look when it came to color temperatures, however also considering the factor of saving energy.

There has been much criticism on LED lighting in the hospitality sector, however LEME lighting were able to design and develop LED luminaries to fit our standards.

We opted for a complete range of LED lamps throughout our property, LEME lighting offers a consistent performance, superior quality, great output with excellent efficiency and a good capability to dimming systems.

We will certainly continue to use their services and expertise in LED.
