PROJECT: Bentley Motors Showroom

SUBJECT: Reference Letter for LEME Lighting

Dear Sanuj,

Project Management Group (PMG) takes pride in being a locally bred professional practice firm – specializing in Project Management, Quantity Surveying and Cost Management Consultancy Services – managing Residential, Commercial, Industrial and Hospitality projects in the Middle East.

PMG worked closely with LEME lighting on the first standalone Bentley Showroom in the world, the showroom required a high level of lighting expertise, which Sanuj and his team delivered right from creating a lighting design, lux calculations to specify products in line with Bentley's brand requirements.

The team were extremely professional and delivered the project in time.

I personally recommend LEME lighting as lighting design and Supply Company.

**For and on Behalf of
PMG,**

**Ahmed K. Awad
Chief Executive Officer**
